PROFESSIONAL EXPERIENCE

SENIOR UX DESIGNER – CREDIT CARD GROUP | TD Bank Aug 2021 – Sep 2025, Palm Beach Gardens FL | remote

Optimized user journeys across the company's personal and business banking digital payments ecosystem, refining processes alongside cross-functional stakeholders to elevate digital product development standards and contribute to a unified customer experience across responsive browser and native mobile platforms.

- Led responsive design and usability prototypes, aligned native mobile design (iOS & Android), and contributed to usability testing development & analysis for continuous user-friendly optimization of Payment Center product, prioritizing the development of simplified workflows and intuitive, self-serve features to ensure its rapid adoption across user segments.
- Initiated the design development of a new self-service Balance Transfer Calculator feature, clarifying design requirements and customer needs through competitor analysis, creative collaboration, usability testing, generative AI.
- Used Figma as primary ideation tool, collaborate, design, align content design, prototype, user test and developer hand off. Accomplished this for browser (responsive) and native mobile (iOS and Android) via Figma Design, Figjam, Figma Make.

SENIOR UX DESIGNER & RESEARCHER | NextEra Energy Jan 2020 – Jul 2021, Jupiter FL | remote

Guided the end-to-end redesign of internal nuclear power plant maintenance applications, spearheading multi-method research studies informing overarching design recommendations and enhancing content design and the functionality of regional plants supplying energy to nearly 2.3 million homes and businesses.

- Collaborated on the design of a single sign-on platform improving security and user accessibility across a suite of internal tools, facilitating multiple usability workshops to understand existing pain points and prioritize tasks across teams.

SENIOR UX ARCHITECT & RESEARCHER | Clever Devices Sep 2017 – Dec 2019, Woodbury NY

Established and refined UI,UX and content design standards, processes and multi-method UX Research methodologies, to inform the design and delivery of scalable interfaces and experiences, partnering with cross-functional teams to ensure design consistency across desktop, responsive web, and mobile products to elevate the capabilities of major mass transit clients.

- Managed all UX and product design projects. Collaborated with designers, marketing, engineers, developers, stakeholders and upper management.
- Championed a consistent UX research strategy across complex projects, defining workflows, style guides, and asset libraries to influence the re-design of multiple product offerings.
- Updated the interface design of the New Orleans Regional Transit Authority's digital route displays, leading the assessment of the system's existing design framework to enhance all stages of creative planning and delivery.

UX DIRECTOR | Valiant Solutions (now Trackforce) Jul 2016 – Feb 2017, Woodbury NY

Drove the re-design of the human capital management company's UI/UX design and established a UX research framework, leveraging client insights to build unified user centered designs aligned with business requirements and industry standards enabling the brand's re-launch and eventual acquisition

- Led all product design end-to-end, managed the UX team, defined and executed design architecture, research and content design processes. Collaborated with designers, engineers, developers, marketing, stakeholders and upper management.

UX/UI TEAM LEAD – INVESTOR COMMUNICATION SOLUTIONS | Broadridge Apr 2011 – Jul 2016, Edgewood, NY

Standardized UI/UX design best practices used to guide the end-to-end development of various desktop and mobile financial applications. Built and led a team of 10 designer/developers that consistently supported and exceeded expectations for product development, browser integration, responsive web design, and user accessibility. Oversaw the design of a first-of-its-kind Investor Communication Portal, strengthening the firm's relationships with several large financial institution clients while saving hundreds of thousands of dollars in annual revenue.

- Led all ICS product design end-to-end, built and managed a 10 person ICS UX team, defined design architecture. Collaborated with designers, engineers, developers, marketing, UX research, stakeholders and upper management.

UX/UI Product Designer/Architect | DOESnet prior to 2015, Shoreham, NY

Designed and developed custom digital marketing for several businesses in the NYC and Long Island areas resulting in diverse cross-industry experience including home building, electrical contracting, emergency healthcare, hospitality, luxury transportation, yacht rentals and an aviation marketplace.

Collaborated closely with business owners and senior leadership across organizations to define design and development strategy that aligned with business goals and user needs, customer engagement and brand experiences. Developed strong stakeholder relationships, ensuring continuity across evolving business needs via scalable and effective design solutions over many years. Especially proud of my work and multi-year partnerships with Seifert Construction (custom home builder) and Hunter Ambulance.

Other previous web design & administration experience is available upon request.
