Sr. UX/Product Design
Lead | Strategy | Research | Content

Versatile UX design leader and product owner with proven success driving the creative vision, UX research, and end-to-end delivery of human-centered customer experiences. Collaborates with product, engineering, and development teams to simplify complex workflows and align best practices with larger business goals, delivering intuitive practical product solutions to real-world problems.

## CORE COMPETENCIES

User-Centered Design Leadership | Team/Product Management | Cross-Functional Collaboration | Design System Optimization | Content Design | Multi-Method UX Research | User Journey Mapping | Agile | Training & Mentorship | Accessibility & Usability

**Tools & Technologies:** Figma | Adobe CC: XD, Photoshop, Premiere, Audition, Acrobat | UserTesting.com | UXPin | Agile | Jira| HTML & CSS | WCAG | AI: Claude (prompts with artifacts generation), ChatGPT, Make, Firefly, Copilot

## PROFESSIONAL EXPERIENCE

**UX STRATEGIST, SOCIAL MEDIA MARKETING | Freelance** Sep 2025 – current, Palm Beach Gardens FL | remote

*Create multimedia social content for real estate property listings, area promotions, realtor marketing focusing on video and graphics creation. Using AI tools for rapid content creation/repurposing.*
*Product Design strategy related to new app development (responsive and native mobile) for established real estate broker, using Claude prompt interface and artifact generation to:*

- Support/optimize the end-to-end process: discovery, competitor analysis, digital marketing plan, market research, ideation, UX research, wireframing, visual designs, interactive prototypes.
- Create a digital marketing plan, competitive analysis, clickable wireframe concept, clickable design prototype, manually modifying code in a separate code editor, leverage Claude Code next.
- Create multiple versions of the home page for client review and approval, then create remaining site pages and navigation.

**SENIOR UX DESIGNER – CREDIT CARD GROUP | TD Bank** Aug 2021 – Sep 2025, Palm Beach Gardens FL | remote

*Optimized user journeys across the company's personal and business banking digital payments ecosystem, refining processes alongside cross-functional stakeholders to elevate digital product development standards and contribute to a unified customer experience across responsive browser and native mobile platforms. Participated in AI integration planning, training and execution.*

- Led responsive design and usability prototypes, aligned native mobile design (iOS & Android), and collaborated on usability test development & analysis (Figma/usertesting.com) for continuous user-friendly optimization of Payment Center product, prioritizing the development of simplified workflows and intuitive, self-serve features to ensure its rapid adoption across user segments.
- Initiated the design development for new self-service Balance Transfer Calculator feature, clarifying design requirements and customer needs through competitor analysis, creative collaboration, usability testing, generative AI.
    - Collaborated on multiple rounds of moderated UT (usability testing) to validate initial concepts for the BT calculator. The resulting feedback yielded a sample BT offer calculation (static), enhanced calculation for comparing offers to decide which one made the most sense for the user, optimized layout of the BT offers list.
- Used Figma as primary ideation tool, collaborate, design, align content design, prototype, user test and developer hand off. Accomplished this for browser (responsive) and native mobile (iOS and Android) via Figma Design, Figjam, Figma Make; UserTesting for recording and analyzing UT sessions and resulting data.

**SENIOR UX DESIGNER & RESEARCHER | NextEra Energy** Jan 2020 – Jul 2021, Jupiter FL | remote

*Guided the end-to-end redesign of internal nuclear power plant maintenance applications, spearheading multi-method research studies informing overarching design recommendations and enhancing content design and the functionality of regional plants supplying energy to nearly 2.3 million homes and businesses.*

- Collaborated on the design of a single sign-on platform improving security and user accessibility across a suite of internal tools, facilitating multiple usability workshops to understand existing pain points and prioritize tasks across teams.
- UX Research: helped develop and run multiple workshops with engineers, techs and managers to gain insights regarding positive/negative experiences when using existing applications/workflows; developed Moderated UT (Usability Tests) based on specific learning goals and using clickable prototypes to test related tasks;

- Leveraged Adobe XD, UXpin and UserTesting.com for UT test set up, execution, recording and analyzing resulting UT data to yield design enhancement recommendations which were presented to project stakeholders for approval; Modified designs and prototypes accordingly for another round of UT and eventually for developer handoff.

**SENIOR UX ARCHITECT & RESEARCHER | Clever Devices** Sep 2017 – Dec 2019, Woodbury NY

*Established and refined UI,UX and content design standards, processes and multi-method UX Research methodologies, to inform the design and delivery of scalable interfaces and experiences, partnering with cross-functional teams to ensure design consistency across desktop, responsive web, and mobile products to elevate the capabilities of major mass transit clients.*

- Managed all UX and product design projects. Collaborated with designers, marketing, engineers, developers, stakeholders and upper management.
- Championed a consistent UX research strategy across complex projects, defining workflows, style guides, and asset libraries to influence the re-design of multiple product offerings.
- Updated the interface design of the New Orleans Regional Transit Authority's digital route displays, leading the assessment of the system's existing design framework to enhance all stages of creative planning and delivery.

**UX DIRECTOR | Valiant Solutions** (now Trackforce) Jul 2016 – Feb 2017, Woodbury NY

*Drove the re-design of the human capital management company's UI/UX design and established a UX research framework, leveraging client insights to build unified user centered designs aligned with business requirements and industry standards enabling the brand's re-launch and eventual acquisition*

- Led all product design end-to-end, managed the UX team, defined and executed design architecture, research and content design processes. Collaborated with designers, engineers, developers, marketing, stakeholders and upper management.

**UX/UI TEAM LEAD – INVESTOR COMMUNICATION SOLUTIONS | Broadridge** Apr 2011 – Jul 2016, Edgewood, NY

*Standardized UI/UX design best practices used to guide the end-to-end development of various desktop and mobile financial applications. Built and led a team of 10 designer/developers that consistently supported and exceeded expectations for product development, browser integration, responsive web design, and user accessibility. Oversaw the design of a first-of-its-kind Investor Communication Portal, strengthening the firm's relationships with several large financial institution clients while saving hundreds of thousands of dollars in annual revenue.*

- Led all ICS product design end-to-end, built and managed a 10 person ICS UX team, defined design architecture. Collaborated with designers, engineers, developers, marketing, UX research, stakeholders and upper management.
- Worked with Adobe XD, Photoshop, Agile/Jira, Net/Azure (some ADO via developer handoff)

*Other previous web design & administration experience is available upon request.*

## EDUCATION & TRAINING

- Bachelor of Arts, Social Sciences | Adelphi University, Garden City NY
- Internet Architecture | Hofstra University, Uniondale NY
- Client/Server systems | Dowling College, Oakdale NY
- Sergeant | US Army Reserve

## LANGUAGES

- English: Native
- Spanish: Fluent
- Portugese: Learning (beginner)
